Keynote Address

Dr. Margaret Flinter is the Senior VP and Clinical Director of the Community Health Center, Inc., (CHCI), and Founder Emeritus of its Weitzman Institute. Since joining CHCI in 1980, she has held roles in the organization as both primary care provider and executive leader as CHCI transformed from a free clinic into one of the country's largest and most innovative federally qualified health centers. In 2005, she founded CHCI's Weitzman Center for Innovation, now the Weitzman Institute, which is CHCI's research, innovation, and education/training arm. She has led the national development of a model of post-graduate residency and fellowship training programs for new nurse practitioners and established the National Nurse Practitioner Residency and Fellowship Training Consortium, an organization devoted to assuring rigor and quality in postgraduate training. Since 2009, she has co-hosted, along with CHCI's CEO Mark Masselli, a weekly radio show, "Conversations on Health Care," which connects people with issues of health policy, reform, and innovation, and speaks widely on topics related to primary care transformation.
